Dropbox Email

Pennant: Enter Match Scores, save them and then Send Match Scores to dropbox or by email to the results manager.

To set up a Match:

Check the **Preferred Grade Team** checkbox to apply the preferred Grade and Team fixture.

[Select a **Grade** if Preferred Grade Team is not checked.]

Select a **Round** via the option buttons.

[Select a **Fixture** match if Preferred Grade Team is not checked.]

Click **Auto** to place the players or manually place them by clicking on the player slots and player names.

Manually select the **playing order** for both teams. Click on the option buttons or their labels for the player slots A to C, X to Y and their doubles slots as needed then click the player to place them in the slot used by the match template.

Click **Create Match**.

If a change in the player order is needed use **Change Players** which will change the players while keeping the Match Scores.

Enter the Match Scores.

Enter the lower game score and press tab.

Press tab again to swap between players.

Forfeits

Option click a forfeiting player in the scoresheet to place the forfeits.

Alternatively, enter "f" in the score boxes of each game for a player forfeiting.

For a match that is best of 5 games, enter f in the first three score boxes (i.e. three times)

Click **Calculate Result** to add up all the scores.

Click **Save Match Scores** to keep the scores.

Send Match Scores

Check the **Dropbox** check box.

Click **Send Match Scores**.

To send a copy via the default desktop email program, check the **Email** check box.

The Match Scores are emailed according to the settings on the Setup screen.

For manual emails, check the **Encoded** checkbox and use **Copy MatchData** to paste the results into an email program.
